HZL-E40

HZL-E50

Simple! Fun! Creative!

Stitch Selection by Touch Sensor

Automatic Buttonholing

Automatic Lock Stitch (HZL-E50)

This versatile unit has a large variety of sewing functions allowing for an endless array of stitching capabilities and creative applications

Stitch Selection by Touch Sensor

It is easy to select your desired stitch pattern by simply pressing the designated button. LED display visually indicates the selected stitch pattern.

Automatic Buttonholing

The machine conveniently sews buttonholes automatically, according to the size of the button. At the sewing-end, it will automatically stop after bartacking. You have the choice of selecting one buttonhole out of four. (HZL-E40: Automatic buttonholing with memory function)

Automatic Lock Stitch (HZL-E50)

By pushing the Automatic Lock Stitch Key, the machine will sew lock stitches automatically at the sewing-start and sewing-end. This simple operation provides neat, uniform, high quality stitches.

Various Functions

Convenient Function Keys

All Function Keys are conveniently located on the sewing arm making it easy and effective to select and operate your many sewing options.

Free Arm

Free arm is available only by removing the sewing table.

Needle stops at its lowest position.

As the needle stops at its lowest position, you can easily turn the material being sewn. By pushing the Reverse Stitch Key, the needle will rise and you can remove the material. This is a safe and effective sewer-friendly function.

Bobbin Thread Winding Monitor.

When the Bobbin Thread Winding Shaft is set to the working position, the machine will stop operation. When it happens, the monitor will operate and visually illustrate that the Bobbin Thread Winder is functioning.

Thread Tension

Finding the correct thread tension for the material you are sewing is easy with the HZL-E40 and HZL-E50.

Drop-in Bobbin

The front drop-in bobbin is easy to see and replace with no separate bobbin case to fuss with or lose. The window in the hook cover makes it easy to monitor the bobbin thread.

Dimension: 410(W)X300(H)X180(D)mm
Weight: 7.3 KGS (Machine only)

Auto Needle Threader

Needle thread can be easily threaded into the needles eye, reducing eye strain and allowing you to start sewing quickly.

Easy Start-Sew

When sewing heavy-weight material, press the button at the presser foot. The bottom of the presser foot becomes parallel to the throat plate, making it easy to start sewing from overlapped sections of heavy-weight fabrics.

Extra Feed Dog

Located in front of the needle entry hole, it enables you to start sewing smoothly and effortlessly.
